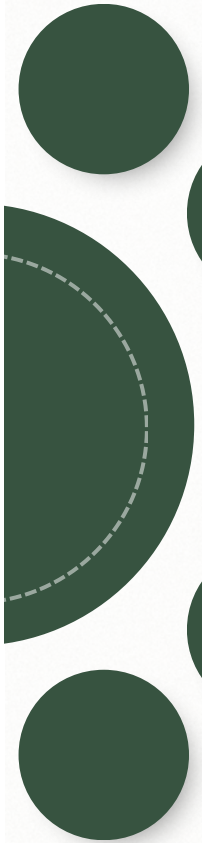
THE PROBLEM DEVELOPERS FACE



Early-stage projects struggle to reach qualified investors

Project data is often incomplete, inconsistent, or difficult to verify

Investor access is fragmented and mostly regional

Cross-border opportunities are hard to source and manage

Early visibility can expose projects before they are ready

THE SOLUTION

PupinXchange is a **global, privacy-first SaaS marketplace** designed to help developers present their projects **professionally, securely, and efficiently to the right stakeholders.**

The platform enables developers to:

- Upload **standardized, verified project data**
- Gain access **to qualified global investors**
- Engage only when interest is intentional
- Collaborate securely with investors, suppliers, and advisors

REVENUE MODEL

- Standard: 0$
- Best buy: 99$
- Premium: 149$

Designed to align incentives and preserve developers control.

CHANGING THE FUTURE OF RENEWABLE ENERGY

PupinXchange

HOW IT WORKS FOR DEVELOPERS

- **Create a verified developer profile**
  Present your company, track record, and expertise in a professional, trusted environment.
- **List projects with standardized data**
  Ensure clarity, comparability, and credibility for investors reviewing opportunities.
- **Control visibility and engagement**
  Projects are discoverable without unnecessary exposure.
  Engagement starts only when interest is real.
- **Connect across the full value chain**
  Interact not only with investors, but also with suppliers and advisors relevant to your project stage.

PupinXchange

WHY DEVELOPERS SHOULD CHOOSE PUPINXCHANGE

- Faster access to the right investors
- Reduced time spent on fundraising and outreach
- Higher trust through verified project information
- Secure, professional collaboration environment
- Global exposure without loss of control

WHO IT'S FOR

- Renewable energy project developers
- Early-stage and mid-stage projects
- Developers seeking private or competitive investment processes
- Teams looking for global reach and professional visibility
