THE PROBLEM SUPPLIERS FACE

Suppliers rely heavily on fragmented networks and intermediaries

Early-stage visibility into upcoming projects is limited

Project data is often incomplete or inconsistent

Cross-border opportunities are difficult to identify and pursue

Competitive tenders require significant time with uncertain outcomes

THE SOLUTION

PupinXchange is a **global, privacy-first SaaS marketplace** that connects suppliers directly with **verified renewable energy projects and qualified stakeholders.**

The platform enables supplier to:

- Gain early **visibility** into verified projects
- **Engage** with developers and investors at the right stage
- Participate in structured private engagements or open tenders
- **Expand** internationally in a **secure, professional** environment

REVENUE MODEL

- Standard: 49$
- Premium: 99$

Designed to align incentives and preserve suppliers' control.

CHANGING THE FUTURE OF RENEWABLE ENERGY

PupinXchange

HOW IT WORKS FOR SUPPLIERS

- **Create a professional supplier profile**
  Showcase products, services, certifications, and project experience.
- **Access verified project opportunities**
  Review standardized project data to assess relevance before engaging.
- **Engage through private matching or tenders**
  Participate in targeted collaborations or competitive processes based on project needs.
- **Collaborate securely**
  All communication and document exchange happen within a trusted platform

WHY SUPPLIERS SHOULD CHOOSE PUPINXCHANGE

- Early access to qualified projects
- Reduced time spent on outreach and bidding
- Higher-quality leads and better-fit opportunities
- Secure and structured engagement processes
- Global market access with controlled exposure

WHO IT'S FOR

- Equipment manufacturers and technology providers
- EPC companies and service providers
- Suppliers seeking global expansion
- Companies supporting solar, wind, storage, and hybrid projects
